

The 5th Annual **Senior Design Competition** will take place on **Sunday, April 13th**, in the Haggerty Hall Student Lounge. The event is sponsored by the College of Engineering Alumni Board and is part of a recruiting event which the College holds every spring semester. The recruiting event is known as the Sophomore/Junior Open House and we invite high school students to visit the University and the College. After the judging is completed and the awards announced, our visitors will arrive in the College, be welcomed, and sent on their way to view the Senior Design Posters and visit with our students. As in past years, judging teams consisting of alumni and faculty will evaluate the posters and award prizes. Below is an overview of the event schedule.

Schedule of Events

- | | |
