REU Site: Hardware, Embedded Software, and Analytics for Environment Quality Monitoring

June 5 - August 11, 2023

Apply by email: cristinel.ababei@marquette.edu and majeed.hayat@marquette.edu

Testimonials:
“I liked the relationships I was able to form with my adviser and other students”
“I liked working with a PhD student”
“I liked boat tour and the Harley-Davidson museum!”

Testimonials:
“I liked getting to know the other students”
“I liked the grad school seminar”
“I liked the machine learning online tutorial”

- Underwater drones
- Hull design, 3D printing
- MEMS sensors water, air
- Fireworks pollution air
- Soot modeling, monitoring
- Hyperspectral aerial imagery
- Algal bloom monitoring with drones
- Water quality via anaerobic biotechnology
- Catchment hydrology and water quality
- Wireless link budget models
- Spectrometer for environment monitoring
- Forecasting for clean environment

Sponsored by National Science Foundation (NSF) and Air Force Office of Scientific Research
Hosted by Marquette University
Electrical and Computer, Civil Construction and Environmental, and Mechanical Engineering
Milwaukee, WI
