EE Elective <sup>2</sup>	3				ELEN 4998	3			
EE Elective <sup>2</sup>	3				SCI/MATH Elec <sup>3</sup>	3			
Theology Elective <sup>e</sup>	3				TOTAL CREDITS	135			

UCCS Requirement	Course No.	EE Electives	Course No.	Course No.	Course No.
Diverse Cultures (DC)		Electronic Devices & Systems			
Histories of Cul & Soc (HCS)		Signals, Systems & Control			
Indiv & Soc Behav (ISB)		EM & Communications			
Lit & Perform Arts (LPA)		Power & Energy			
		Computer HW & SW			

#### **DEGREE REQUIREMENTS INCLUDE:**

- Every required course
- Approved elective program.
- A "C" (2.0) or more average at Marquette
- A "C" (2.0) or more average in Engineering courses
- A minimum of 135 semester hours
- No course may be taken for credit without the required prerequisite(s)
- All substitutions and/or departures from stated curriculum must be approved in writing in advance

#### Notes:

## University Core of Common Studies:

(a) Refer to the College of Engineering section of this bulletin for details relating to footnotes b, c, d, e, and f.

~~~ College Notes ~~~~

- (b) This course satisfies requirements of the University Core of Common Studies.
- (c) The Core Electives must satisfy University Core Requirements in the following four Knowledge Areas: Diverse Cultures, Histories of Cultures and Societies, Individual and Social Behavior, and Literature/Performing Arts. See the section on University Core of Common Studies for lists of acceptable courses. Only one of these courses can be a dual application course.
- (d) If the previous Core Electives span all four Knowledge Areas (as listed in the previous footnote), a threecredit free elective may be chosen. This situation will exist if one of the student's core electives is a dual application core course, as described in the section on the University Core of Common Studies.
- (e) The Theology Elective must be selected from the list of approved Core courses in the Theology Knowledge Area. See the section on University Core of Common Studies.
- (f) The Core Rhetoric 1 requirement is to be fulfilled by ENGL 1001; the Core Rhetoric 2 requirement is to be fulfilled by either ENGL 1002 or COMM 1100.

#### Department notes:

- (1) A C or better grade is required in this course to meet the prerequisites for subsequent computer and/or electrical engineering required courses.
- (2) The six EE Electives must satisfy both a breadth and a depth requirement. To satisfy the breadth requirement, the student must take EE Electives in at least three of the following five areas: Device Systems; Signals, Systems and Controls; Electromagnetic Fields and Communication, Power and Energy Systems; and Computer Hardware and Software. To satisfy the depth requirement, the student must take at least three EE Electives in one of the aforementioned areas. A course listed in multiple concentration areas may be counted toward only one elective requirement.
- (3) The science/math elective can be fulfilled with any upper division math or physics course or any biology or chemistry course for which the prerequisite requirements are met.

# **Elective Choices**

**The breadth requirement**: Students must choose at least one course from at least 3 different concentration areas.

The depth requirement: Students must choose at least 3 courses from one concentration area.

## Courses listed in multiple concentration areas <u>count</u> in ONLY <u>one</u> concentration area.

Concentration areas:

| Concentration areas                       |      |                                                       |  |  |  |
|-------------------------------------------|------|-------------------------------------------------------|--|--|--|
| Electronic Devices and                    |      |                                                       |  |  |  |
| EECE                                      |      | Integrated Microelectronic Circuits                   |  |  |  |
| ELEN                                      |      | Physical Principles of Solid State Devices            |  |  |  |
| ELEN                                      |      | Surface Acoustic Wave Devices and Systems             |  |  |  |
